1 1/2-2' specimen	4.50	4.25	

A view of one of our lathhouses.

		1-9 rate	10 rate	100 rate
virginiana hilli (Hill Dundee Juniper).				
Upright columnar form; gray-green foliage turning to plum color in winter.				
2½-3'	4.75	4.50	4.25	
virginiana keteleeri , broadly pyramidal outline. Bright green foliage.				
2-3'	4.25	4.00	3.75	
3½-4'	6.00			
PICEA (Spruce)				
glauca (White Spruce). A symmetrical tree with dense gray-green foliage.				
15-18"	2.00	1.75	1.65	
TAXUS (Japanese Yew)				
By far the most popular evergreen on the market. It withstands city conditions and shade better than any other evergreen. Being very hardy and tolerant to any amount of trimming it can thus be kept within bounds. Being immune to many insect pests and plant diseases makes it very desirable.				
We always have a large quantity of Taxus in our lath houses for immediate pick-up or delivery.				
TAXUS				
cuspidata (Spreading Japanese Yew).				
Bushy, spreading habit.				
10-15"	3.50	3.25	2.75

	2-2½'	4.75	4.50	4.25	
BROADLEAVED EVERGREENS					
These plants are balled and burlapped. They should be planted in protected places and peatmoss or regular ericaceous plant food applied. This type of plant material is being used more and more in this climate and if given only a slight amount of protection will give marvelous results and much pleasure to your customers.					
AZALEA , Shrub-type plant blooming profusely in early spring.
